

Lessing Leespos

Power BI | Azure | Fabric | Excel | Analyst Engineer

Lessing10one@hotmail.es • LinkedIn lessing-leespos10one • github.com/LessingLeespos

Operations Data Analyst with 2+ years of experience building reports, dashboards, and driving data integrity. Equipped with SQL, Python, and cloud ecosystems (Azure/Fabric) to bridge the gap between complex backend data and actionable business strategy. Passionate about transforming chaotic data 'oceans' into clean, structured insights.

Experience

Optimum Business

Operations Data Analyst 2024 - Current

Responsible for the end-to-end tracking and reporting of service installations. Bridge the gap between field technicians and clients by ensuring data integrity and providing detailed performance reporting and business intelligence.

- Integrated and automated data flows from ERP/CRM sources into unified reporting structures, reducing manual processing time and boosting agent productivity by 5%.
- Designed and monitored daily data validation and reconciliation workflows, improving reporting accuracy and providing the visibility needed to help boost successful installation rates from 68% to 74%.
- Led weekly high-level briefings with clients to present performance data, track installation KPIs, analyze operational trends, and align on project goals.

UnitedHealthcare

Phone Customer Service Consultant 2022 – 2024

- Inbound Advisory Support: Served as the primary point of contact for members and providers, navigating complex inquiries regarding health insurance plans, coverage benefits, and network doctors.
- Processing prior authorizations and claims, resolving intricate billing, copay, and prescription coverage issues.

Samsung Electronics US and Canada

Phone Tech Support and Sales 2019 – 2022

- Tier 1 & 2 technical troubleshooting while doing service request management for Home Electronics.
- Handling high-priority customer escalations, negotiating and authorizing financial resolutions including refunds, product returns, and exchanges. Selected to support the Samsung HA Canada division, adapting to region-specific policies, warranty guidelines, and customer service standards.
